 MAZZER Mini Electronic Silver/ Alluminio M03-FMIEB1D0EDOA

Date: _____
 Project: _____
 Location: _____

Produces consistent coffee grinds for any purpose - the ideal choice for small restaurants, offices, or the espresso enthusiast's home.

PRODUCT FEATURES

- 64 mm Commercial Grade Steel Burrs
- Updated Interface design
- Portafilter holder that can double as a tamping stand
- Micrometric adjustor for infinite grind settings
- 2 programmable timed dose amounts and a manual mode
- shot counter
- Heavy-duty Motor + Grinding Burrs
- Stepless Grind Settings
- Compact Coffee Bean Hopper
- Grinds catching tray

Built to last with only top-quality materials

The Mini Electronic grinder-doser features flat blades suitable for low consumption (decaf, single-origin coffee). A surprisingly quiet espresso bean grinder and perfect for small spaces thanks to its short hopper.

The Mazzer Mini is the ideal choice for the small restaurant, sophisticated office, or espresso enthusiast's home.

Precise Programable Dosing

The Mazzer Mini E has 2 user programable dose settings with 0.05 second intervals for a perfect shot every time.

Manual Dosing

If you prefer more control, there is a manual override button to dose the shot by hand.

Stepless Adjustment

With no notches or indents, the Mazzer Mini can be set to any possible grind setting to ensure your grind is perfectly paired to your machine.

Universal Hands-free, On-Demand Dosing

With a full size portafilter holder, the Mazzer Mini can accommodate nearly any portafilter and doesn't require any screws or fiddly adjustment mechanisms seen on most other hands free portafilter holders.

64 MM Commercial Grade Steel Burrs

The Mazzer Mini features heavy-duty burr grinding wheels to crush the large quantities of coffee quicker while imparting very little heat to the freshly ground coffee. The cutting wheel is 64 mm in diameter and uses high-grade tempered steel for long life.

		MINI ELECTRONIC A
