HQ Cold & Hot Frothed Milk

The new X30 can prepare both hot or cold frothed milk (Snowmilk), thus expanding the menu with recipes made with coffee, hot chocolate, cold and hot frothed milk. With X30 you can savour hot and cold frothed milk like it was prepared by an expert hand: a unique experience!

Connected and smart.

The 10.4" touchscreen display

The X30 has a customizable interface - with images, machine display, films and sounds to help the customer chose their drink are some of the features offered by the X30. All while being simple and intuitive.

Thanks to the Cup4You App, you can interact with your FAEMA X20 from your tablet or smartphone, customizing the drinks.

New Titanium Steel Grinders with PGS Function

The PGS (Perfect Grinding System), continuously monitors the coffee delivery parameters, which automatically re-grinds and doses if necessary, to ensure consistency in delivery and optimal extraction quality

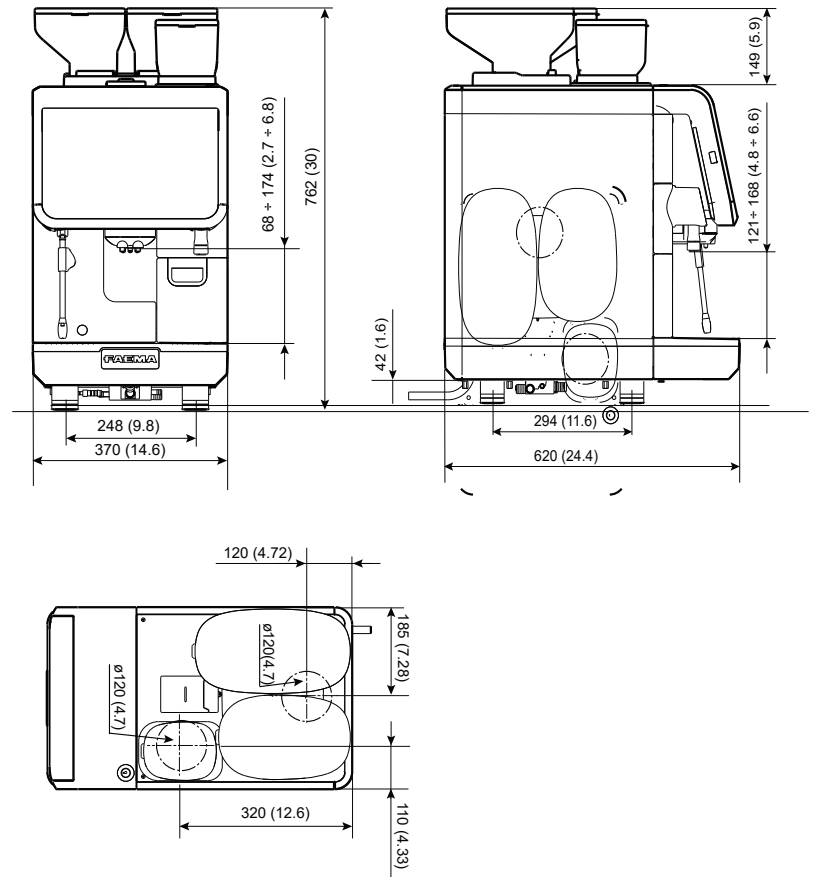

New Services Boiler and Coffee Heater

Equipped with two boilers, made from stainless steel with external insulation: the first generates steam and hot water, while the other is dedicated to the preparation of coffee-based beverages.

The patented Smart Boiler system optimizes the performance of hot water and steam avoiding a reduced production during the peak hours.

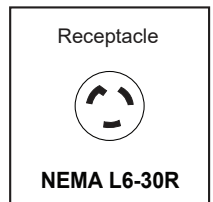

Hoppers and Solubles

Dual 1/1.2 kg bean hopper and a built-in soluble chocolate system.
