

# Essential Pro

## Make it simple

At Zumex we know that the most avant-garde technology is not at odds with simple operation.

Essential Pro is our simplest and most functional juicer, our answer to bars and cafeterias that need simplicity at work but without giving up maximum service quality. With Essential Pro you will provide quality fresh juice, with a great flavour, extracting the best out of each citrus fruit without essential oils in a really simple and easy way.

Discover a high-performance machine designed to make things very easy for you.

## Discover its simplicity and practicality in every detail

### Fast and simple extraction

Essential Pro is designed for intermediate demands for juice where it is practical just to **load and squeeze**, which is why its feeder comes ready to only load the oranges you need, up to **4/5 pieces of citrus fruit manually**, so you control the work, easily adapting it to the demand of your business.

22 / oranges / min

### Unrivalled rhythm

It **squeezes up to 22 oranges per minute**; high performance to keep up on those days when the demand is greater without worrying about anything.

### Work at your pace with Touch Control

Thanks to its **convenient Digital Display** you can set the mode of use that best adapts to you. You will intuitively control the number of pieces of fruit you squeeze, the language and many other options that will make your work easier.

### Two operating modes for it always to be easy

With the **Self Service** mode, you can squeeze directly into the glass or jug just by pressing the tap; with the **Autostart** mode for automatic operation, when the citrus fruit is placed in the feeder the machine begins to squeeze.

### A smart and functional tap

With built-in **non-drip system** for Self-Service use, and **blockage option** for automatic use.

### Built-in waste containers

To make it easier for you to remove the peel and waste.

Touch Control

Smart Tap

Integrated Peel buckets

## Type of consumption
